CONTINUED CARE AND ADVANCED PLANNING

While addressing all the issues surrounding the estate, it is wise planning to organize the following to relieve those responsible of a complicated legal, financial and emotional burden at a time of stress.

- Complete or update your will
- Complete or update your Power of Attorney for Property
- Complete or update your Power of Attorney for Personal Care
- Complete or update your Pre-arranged Funeral Plan

THREE STEPS TO FUNERAL PRE-PLANNING

Talk with your Family: Pre-arranging a funeral begins with a conversation between you and your family about your final wishes. Whatever arrangements you make for yourself will have no impact on you, but will have a major impact on your family. Often times what you think will be best for your family will actually make things harder for them at the time. The plans you make will affect how they cope and come to terms with their loss.

Get Organized: The next step is to get organized by meeting with a Funeral Professional in your home or at their office. They are trained to help you evaluate the options available and will help you develop a plan that makes sense for you and your family.

Paying for the Arrangements: The funeral will have to be paid for eventually. The question is: pay now or have someone else pay later? Only you can decide that based on your financial status. Most people decide to pre-pay to make things easier for their families. There are numerous options for pre-payment. Your Funeral Professional will walk you through these options so you can determine what works best for you. If you choose to pre-pay, your Funeral Professional will draw up a contract itemizing the costs and payment terms.
